ISS Grounds Control Participates in Salvation Army Event

December 18th - (Phoenix, AZ) Recently, a group of ISS Grounds Control staff members donated their Saturday to help relandscape a Salvation Army Center with other Valley Partnership members. Dan Scholl was gracious enough to lead the charge this year in what has become an annual event.

This was done as part of the Valley Partnership's community events group. Each year ISS Grounds Control provides manpower and materials to assist in improving the community at facilities similar to this one pictured. Our staff enjoys being involved and doing their part in giving something back to the community in which they live.

ISS Grounds Control

ISS Grounds Control is headquartered in San Antonio, Texas and is a wholly owned subsidiary of ISS Facility Services, Inc. ISS Grounds Control has landscape maintenance and installation operations in Arizona, California, Nevada and Texas.

ISS Facility Services offers a wide range of service solutions, from single services to fully Integrated Facility Services (IFS) that combine all aspects of customer service and support functions into one single solution. ISS provides facility management, cleaning, property services including landscape maintenance and construction, office support, catering, and security to more than 50 countries around the world.
